had been suffering for weeks. Mr. Patton's recently published book, "The Island as seen by an American," which was very widely read, has been translated into Italian. Mount Etna is increasing in activity and there is serious danger to the city of Catania. Roscio from the flow of lava is being taken for the moment. Vast columns of smoke are coming from the crater of the mountain. The most imposing spectacle is the flow of lava which are now issuing from the crater. A stream, in some places, is flowing toward the city of Catania. Bankers and Merchants are alarmed and are against the Western Bank of New York.

other blatant anarchist at Chicago. When station he was very leavoured to convince the Haymarket attack liable. "There will be he coolly exclaimed. ended by any means. damnable." An ex-closed the fact that

the popular misapprehension of the French which will be corrected by the official statistics: 'The total number of petitions filed is 885, with an amount of \$4,922,638.85 on each petition. The number of national petitions, the amount of which is not known, is 100,000, averaging in the total \$49,226.38. These figures will, however, be reduced in the trial balance sheet.' A.
